

Sprint 7

Sprint goal

The goal for this sprint is to create our final video for the expo and finish our expo page. Also, we need to hand the code base off to our project partner and move the sandbox back to its original location. Any other minor things that need to be completed for wrap up will also occur during this sprint.

Product log

- Finish expo page.
- Move the sandbox back to the original location.
- Finish anything left to do for wrap up.

Member task

Everyone will contribute to everything
